PROFESSIONAL SUMMARY

Entry-Level Full Stack Developer (MERN) with hands-on experience in MongoDB, Express.js, React.js, and Node.js. Skilled in building responsive web applications, developing RESTful APIs, implementing authentication systems, and performing CRUD operations. Proficient in JavaScript (ES6+), API integration, and data structures. Strong problem-solving abilities with a focus on developing scalable and efficient applications. Eager to contribute to real-world projects and continuously enhance technical expertise.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Java, C++

Frontend: React.js, Redux Toolkit, Tailwind CSS, HTML5, CSS3, Responsive Design

Backend: Node.js, Express.js, RESTful APIs, Authentication & Authorization

Databases: MySQL, MongoDB

Version Control & Dev Tools: Git, GitHub, Visual Studio Code (VS Code), Postman

EDUCATION

B.Tech in Electronics & Communication Engineering (ECE)

2022 – 2026

Greater Noida Institute of Technology, Greater Noida | Dr. A.P.J. Abdul Kalam Technical University (AKTU)

CERTIFICATIONS

- Full Stack Development Certification, Infosys Springboard | July 2025
- Data Structures & Algorithms (DSA), E&ICT Academy, IIT Kanpur | August 2025
- ReactJS Certification, Infosys Digital Academy, Springboard | March 2026

PROJECTS

Control Desk | MERN Stack

- Built a web-based task management application using MERN stack to efficiently track and update tasks.
- Designed a task lifecycle with stages: New → Active → Completed → Failed.
- Managed CRUD operations to dynamically handle tasks.

Employee Task Manager | React.js, Tailwind CSS

- Created a web-based Employee Task Manager for assigning, monitoring, and tracking employee tasks, with task data stored in Local Storage for real-time updates.
- Implemented task workflow logic to efficiently handle status changes across multiple stages.

Vault Pro | React.js, Tailwind CSS

- Vault Pro is a modern and responsive finance dashboard UI built using React.js and Tailwind CSS. It provides users with a visually appealing interface to track balance, income, expenses, and spending insights through interactive charts and components.

ACHIEVEMENTS

- Solved 190+ Data Structures & Algorithms (DSA) problems in Java.
- Proficient in optimizing solutions using Arrays, Strings, Linked Lists, Stacks, Queues, Trees, and Sorting Algorithms.

LEADERSHIP & ACTIVITIES

- Organized and managed college-level cricket tournaments for 16+ teams, overseeing full-scale logistics, team management, and match scheduling.
